FOREWORD.

We have always felt that South Texas Nurserymen needed a wholesale grower in our great State, and, with this idea, we have tried to grow a sufficient assortment of citrus trees to please the most exacting purchaser. Our stocks are all on 3 year roots. (Citrus Trifoliata.) Buds are cut from proven bearing trees. Our trees are well branched and graded both by caliper and height.

In all of our 25 years in the tree business we have never grown a better stock than we are offering this season. A visit to our nursery will convince you. To our friends who have bought from us heretofore, we wish to thank you for the business, and solicit a continuation of the same. To our prospective customers, we ask a trial order, and be convinced.
